VALENTINES WATER WHEEL

I Alf NTINE S WATER WHEEL

[To the Editor of the Whig and Counter]

[Mito April 29 1847

I have lately purchased of Mesors Hinckle & Ecory one of Valentine's Patent Reacting Water Whards which has been put in operation by Mr David M Cleich on experienced Mil wright of its stown for propelling machinery in the Woollea Factory. The wheel so for excels our expectation that I (consider it an act of justice to the propriet is to recommend the Wheel to persons but kind that I (consider it an act of justice to the propriet is to recommend the Wheel to persons but kind factor of an ather Wheel with which E am acquainted The Wheel is of feet in diametel and the head of water is 1 feet. This drives one set of Woollet M chinese with fulling in Itan [incker The power very near three times is much jower as the II feet. This drives one set of woollet M chinese with fulling in Itan [incker The power very near three times as much jower as the II feet. This drives one set do we sat the II feet. The Wheel is not to best riced by back water, and goes sufficiently steady without the aid of a regulator of errors interested in Water Wheels are spitted call at the Factory and examine for the inches

I at the Factory and examined J W Closed I is a indersigned confidentially recommend. While to the owners and operators of Manple ites Wills, and Machiners as excelling a wheel in use for power carability simplicity at concast. Cot 14 1346 Lawdewijs
